

Maxplus Tank-Mounted Screw Compressor With Dryer & Filter

The Maxplus compressor is a completely preassembled air production and treatment plant capable of providing air free of oil and condensate.

The new MSA series, a silenced and oil injected rotary screw compressor.

Compressed air receiver with base for easy handling.

A DSX series refrigeration cycle dryer with R 134a gas to supply dry air.

Pre and post-filtering units.

All the condensate is conveyed to a single point and discharged by means of a programmable electronic system.

340L
